

LIFE CYCLES – CIRCLE OF LIFE

Post-Visit Activities

Windows on Wildlife

Definition

Life Cycle

A series of stages that a plant or animal goes through during its lifetime. A butterfly's life cycle includes the following stages: egg, caterpillar, chrysalis, and adulthood.

Activity – Life in the Nest

Webcams

click on the webcam links at the bottom of the page to watch three different species of raptors raise their families.

Activity Suggestions

click on the link below to download a brochure which has activity suggestions that can be used along with the webcams
